*	NOT possible with protocol driver S5-PG, S5-L1, AEG-AKF.						
*1	Windows XP and Windows Embedded 2009 are no longer supported by the Intel® Atom E3845.						
*2	Conversion of license model to annual subscription. To order directly from RealVNC or use of open source such as UltraVNC or TightVNC by customer.						
<b>Legend:</b>							
Status	"Current product" = the product is at latest technical level and is supported by all departments "1995" = The year in the column headed "status" is the year in which the product was/will be discontinued "TBD product" = support for this product will cease within the next 1-3 years when the product will be discontinued						
Can be replaced by	Possible successor or alternative product						
Available	Yes = fully available and contained in price list No = product no longer available Year = available until ...						
Spare part	Yes = if "Available = yes" -> fully available and contained in price list, if "Available = no" -> available as spare part, no longer contained in price list No = product no longer available Year = available until ..., no longer available for new projects, only available as spare part or for existing projects, no longer contained in price list						
Repair	Yes = the product can be fully repaired No = the product can no longer be repaired, spare parts for the product are no longer available Limited = the product can only under some circumstances and partly be repaired, since not all component parts needed for a repair are available Year = repair warranty until ..., after which the repair status is changed to "No" or "Limited"						
Support	Yes = the product is fully supported No = the product is no longer supported Limited = product support can only be granted under certain circumstances and to the extent that information is still available. There will be no comprehensive problem solution or error re-creation Year = product support will be granted until ..., after which the support status is changed to "No" or "Limited"
